sakinasaifee006@gmail.com . Houston, Texas . +1 (346) 870 0136 . LinkedIn . Personal Website . GitHub

SUMMARY

Data Science & AI professional and software developer with 3.5+ years solving automation, analytics, data-integration, and machine-learning problems across healthcare/RCM, banking, higher education, and software. Automated 1,074 monthly reports, analyzed 500K+ banking and 3M+ retail records, trained models to 91% accuracy, and built full-stack and agentic workflows.

EDUCATION

Master of Science in Engineering Data Science & AI, University of Houston, Houston, TX — Aug 2025 - Present

Coursework: Machine Learning . Applied Neural Networks . Big Data Analytics . Data Visualization . Database Management . Software Engineering

Bachelor of Computer Science (Gold Medalist), Iqra University, Pakistan, GPA: 3.89/4.0 — Jan 2021 - Jan 2025

PROFESSIONAL EXPERIENCE

Dental-X AI — May 2026 - Present

AI Automation Engineer Intern

- Build Python pipelines integrating PMS, DentalXchange 270/271, payer APIs, RPA, SQL, and JSON into a unified dental eligibility structure.
- Map CDT codes, coverage, deductibles, maximums, and frequency limits for AI-assisted benefit summaries and operational workflows.
- Unified 15-20 healthcare sources across seven deployments, saving approximately two hours of processing per eligibility case.

Texas Manufacturing Assistance Center (TMAC / NIST-MEP) - Houston, TX — Feb 2026 - Present

Business Intelligence & Automation Intern

- Automated reconciliation for 1,074 monthly reports across 11+ departments and 50+ grant and non-grant accounts, reducing manual work by approximately 50%.
- Built Power BI dashboards and Power Apps workflows for budgets, actuals, payroll, commitments, verification, and discrepancy tracking.
- Created Python, SQL, SharePoint, OneDrive, and Power Automate processes for repeatable PeopleSoft data refreshes.

University of Houston - Department of Mathematics - Houston, TX — Dec 2025 - Feb 2026

Graduate Research Assistant

- Trained SVM and CNN models on 1,000+ microscopy images using Python, Keras, OpenCV, and Scikit-learn, achieving 91% classification accuracy.
- Built reproducible extraction, preprocessing, feature-generation, training, and evaluation components for research analysis.

BluTech Consulting - Karachi, Pakistan — May 2024 - Aug 2025

Business Intelligence Consultant

- Built 10+ Power BI and Tableau dashboards over 500K+ banking records using SQL, Teradata, and HiveQL for United Bank Limited.
- Automated anomaly detection and root-cause analysis, reducing reporting turnaround by 25% for business stakeholders.

SoftSyncDev - Karachi, Pakistan — Jan 2021 - May 2024

Software Engineer

- Built an OpenAI REST API chatbot and resolved Node.js/Prisma bottlenecks, reducing response latency by 40%.
- Developed 5+ MERN applications using React, Node.js, Express, MongoDB, AWS S3, REST APIs, Git, and CI/CD.

PROJECTS

AI-Powered Job Application & Outreach Automation | GitHub

- Built an n8n multi-agent workflow using Apify and Firecrawl to discover, verify, deduplicate, filter, and fit-score newly posted roles.
- Connected Claude Code, Google Drive, Airtable, and LinkedIn Connections Export to tailor materials, prepare outreach, and queue applications for approval.

GAN-Based Chest X-ray Augmentation for Pneumonia Detection | GitHub

- Built a DCGAN on approximately 5.2K images, generated 2,000 synthetic X-rays, and improved CNN test accuracy from 73.56% to 82.21%.

AI-Driven Retail Inventory Forecasting & Optimization | GitHub

- Built Linear Regression, Random Forest, and LightGBM pipelines on 3M+ sales records with time-series feature engineering and K-Fold validation.

HMS - Harmful Brain Activity Classification | GitHub

- Trained CNN and EfficientNetB2 models on 54,000 EEG spectrogram images and evaluated probabilistic predictions with KL divergence.

SKILLS

Languages & Engineering: Python, SQL, JavaScript, TypeScript, Java, Node.js, React, REST APIs, JSON, Git, CI/CD, AWS S3
AI & Machine Learning: Claude Code, OpenAI API, TensorFlow, Keras, PyTorch, Scikit-learn, CNNs, GANs, SVMs, LightGBM, NLP
Data & BI: Pandas, NumPy, Power BI, Tableau, Power Apps, DAX, Power Query, Teradata, HiveQL, Oracle, BigQuery, Excel
Automation: n8n, Apify, Firecrawl, Airtable, Power Automate, SharePoint, OneDrive, Postman, Data Mapping, EDA
